Presidential Corner by Philip Runyon

We hope everyone had a safe and enjoyable holiday season!

We are excited to kick off our Ashrae 2018 year and have a great topic lined up for our first meeting on January 9th. We are also having our Myrtle Beach sectional meeting on January 10th so if you have any contacts in the Myrtle Beach area please forward the invite to them to attend. Anyone from the Charleston area is welcome to attend, but it will be the same presenter and topic that we are having at our meeting on the 9th.

Thanks to everyone that attended the Oyster Roast and Sustainability event in December. Hopefully you all enjoyed the change in scenery and we are open to suggestions on these events moving forward as to how to better them for the good of our chapter. Please let us know if you have any ideas and hope to see you all on Tuesday at Harbor Breeze for our 2018 kick off meeting!

For more information about this column, contact Gene Brown (gene3380@gmail.com).

Members are encouraged to take advantage of the ASHRAE certification program. Certifications include: Energy Assessment Professional (BEAP) ; Building Energy Modeling Professional (BEMP); Commissioning Process Management Professional (CPMP); Healthcare Facility Design Professional (HFDP); High-Performance Building Design Professional (HBDP) and Operations & Performance Management Professional (OPMP)

All members with an eligible project should submit an entry for a technology award. Contact me with any questions.

GENE3380@GMAIL.COM

Members are encouraged to make presentations to professional groups. Let me know so our chapter can get credit.

All members should attend the Chapter Regional Conference in August. This is an excellent opportunity to network with members from other cities, attend training sessions and to just have a good time.

Any member who can make presentations to professional groups will provide a valuable service to ASHRAE and to the construction industry. Let me know about any presentations you make so our chapter can earn PAOE points.

RP Corner:

Half way there, we are over \$10,000, Happy New Year.

Thanks everyone and see you soon,

Steve Marek

RP Chairman Charleston Chapter

GGAC Corner:

February 18-24, 2018 has been designated as Engineers Week (EWeek). Since 1951, EWeek has been set aside to recognize the remarkable men and women of this profession and to inspire young people to enter into the engineering fields. EWeek is a formal coalition of more than 70 engineering, education and cultural societies, with more than 50 corporations and government agencies dedicated to raising public awareness of engineers' positive contributions to the quality of life. The [Eweek website](#) provides additional information about this annual commemoration as well as links to their social media outlets such as [Facebook](#), [LinkedIn](#), [Twitter](#) and [YouTube](#). [View the ASHRAE draft proclamation and cover letter](#) to send to elected officials.

Visit the EWeek website at <http://www.discovere.org/our-programs/engineers-week>

Pete Conroy

GGAC Chair

CEJC Corner:

E-Week Banquet Planning Committee will hold its next meeting Mon, 8 Jan 2018 at The Citadel, Grimsley Hall/5:30pm. The Banquet will be held at The Citadel, Mark Clark Hall, Buyer Auditorium (2nd floor) on Tue, 13 Feb 2018. Volunteers are welcome to join the committee.

It is imperative that member societies ensure the award nomination notifications are disseminated to their members who are expected to in-turn pass the nomination notifications to their company or agency human resources departments for local enterprise-wide announcements and submissions. In addition, members need to be enthusiastic advocates for these awards and nominations throughout their company/agency to include HR and push for the widest dissemination possible.

The initial nomination announcements for both Engineer of the Year and Technical Project Team of the Year are out and all members organizations have been asked to help create awareness about the awards, raise their profile, and garner nominations. We as a supporting committee need to make sure we get some nominations in.

Next CEJC Stingrays Hockey night will be Sat, 17 Feb 2018. Free parking is again available game night.

Dear Sir/Madam,

The mission of the Charleston Engineers Joint Council (CEJC) is to advance and promote the prestige of the engineering profession. The Council supports Charleston area professional engineering societies with their individual society goals and provides outreach, educational services and support for children to encourage their pursuit of engineering and technological careers. One of the ways the CEJC accomplishes these missions is by offering scholarships to highly qualified young men and women in order to assist them in their goals of becoming engineers.

The Council is currently soliciting financial support from organizations in the Charleston area towards sponsorship of our scholarship program, various educational outreach programs and the annual Engineers Banquet.

Annually the scholarship committee awards a minimum of two scholarships to a graduating high school student, who has been accepted to a university engineering program and we support a scholarship to a currently enrolled student in a local university engineering program. Thanks to the support of our member societies last year, we were able to provide 3 scholarships to students at 3 local high schools plus support Lee Clippard scholarship award. It is the goal of the Council to continue to provide scholarships such as these mentioned. With your help we can achieve this goal.

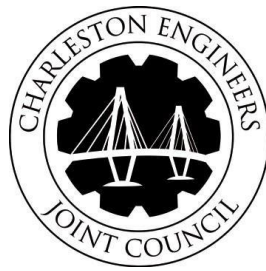

Every year the Council provides financial and volunteer support to programs which encourage children to be involved in Science, Technology, Engineering and Math (STEM) related development programs which will better prepare them academically for engineering curriculums.

With financial sponsorship from your institution, the CEJC will continue to support young men and women as they pursue an engineering education. If your organization is interested in sponsoring a scholarship, MATHCOUNTS and the Banquet this year, please do not hesitate to contact us. For sponsorship levels please see the attached sheet. The Council appreciates the support of your organization.

Sincerely,

Dick Tiano
