Charleston ASHRAE Chapter— Sept. 2016

We hope everyone had a restful summer, and are ready for an exciting season of ASHRAE. Our first meeting will be held Tuesday, September 13th at Harbor Breeze at 6 pm, a summary of the meeting can be found at the end of this newsletter. We welcome our new Chapter President, Megan Rooney, and know she is doing a great job getting things started off for our Chapter so far. We are all very excited to learn and increase our knowledge base this year, so please help increase our attendance at meetings so we can get the most out of them have thought provoking discussions about the topics at

Presidential Corner— September 2016

I am excited to be volunteering as the Charleston Chapter President this year. A handful of Charleston Chapter members attended another successful CRC in Atlanta this August. Our chapter won many awards again this year.

The Charleston Chapter website is up-to-date with upcoming meetings and committee chair positions and contact information. This year we are working with Operation Home to coordinate one to two sustainability activities. Operation home is an organization that helps homeowners who are often disabled or unable to work with emergency home repair and heat and cold relief. We are currently corresponding with this organization and will announce and get a sign-up on the website as soon as possible.

Be on the lookout for some more fun YEA events this year including a brewery tour and more. As always, we have many opportunities for anyone that wants to get involved volunteer for our Chapter.

A great big thanks to Louis Schweers and his mother for the use of the beautiful home where the June meeting was held. The Low County Boil, the view of the harbor and the company of our friends made this one of the best meetings ever.

At the meeting three chapter technology awards were presented to Seth Spangler of RMF. The awards were for Goose Creek High School, Goose Creek Fire Station and Nexton Elementary School. Congratulations, Seth.

All of you are encouraged to enter your projects into technology award competition. Any of you with refrigeration projects should apply for the Milton Garland award. If you want more information on requirements for entries, you may check the ASHRAE website or contact me at gene3380@gmail.com.

Our chapter receives PAOE points for any member who achieves an ASHRAE certification. Let me know if any of you receive a certification.

PAOE points are provided for members who make presentations to professional groups. Dennis Knight made an outstanding presentation to the Building Enclosure Council in July. Dennis has consulted with South Carolina lawmakers regarding requirements for building energy efficiency and has helped resist efforts to eliminate requirements for reduction in energy usage.

All members are encouraged to attend the Chapter Regional Conference next August. The conference is always enjoyable and is a valuable learning opportunity.
